CLAIMS

What is claimed is:

1.   A wheeled, portable, collapsible athletic equipment carrier comprising:

a two-wheeled cart; and

an athletic bag incorporating said cart for aiding in the carrying of athletic

equipment from one's vehicle to the playing area.

2.   The equipment carrier of Claim 1, wherein said cart comprises:

a main frame having an anterior end opposite a posterior end and

including a hollow, tubular base member forming a U-shape which serves as a

base upon which said athletic bag can be supported.

3.   The equipment carrier of Claim 2, wherein said cart further comprises:

a support stand having an elongated, hollow, cylindrical U-shaped

configuration affixed to lower external circumferential sidewalls of the U-shaped

portion of the base member at corners so as to provide structural stability

thereto.

4.   The equipment carrier of Claim 1, further comprising a hand-operated

inflating pump securely attached to an outer, elongated sidewall of the upright

member of the frame in a linear fashion so as to provide a means for inflating

sports balls requiring inflation.

5. The equipment carrier of Claim 2, wherein said cart further an elongated,

5 hollow, tubular handle formed of a U-shape and pivotally mounted to inside

external circumferential sidewalls of said main frame at the anterior end thereof.

6. The equipment carrier of Claim 1, wherein said athletic bag comprises a

generally vertically elongated configuration having a top end opposite a bottom

10 end and is fabricated of a weatherproof, flexible, heavy fabric.

7. The equipment carrier of Claim 1, wherein said bottom end rests against

the base such as to form a bag mounting platform to serve as a base upon which

the base of the athletic bag is permanently attached.
